

# AutoScreenRecorder 2.1 Pro

© 2002 - 2006 Wisdom Software Inc. All rights reserved.

**An easy and powerful screen recorder to record your screen actions to Flash movies!**

**AutoScreenRecorder 2.1 Pro** is an easy-to-use and powerful screen recording software for recording screen actions into Flash movies (SWF) and AVI videos. It provides the edge you need to succeed in recording activities and movie streams, showing operation steps, making demos and videos for training and tutoring. It comes with a number of features that can deliver the highest quality video files. As well, AutoScreenRecorder 2.1 Pro offers easy-to-use user interface and flexibility for your interactive experience.

Save anything you see or do on your screen -- moving the mouse to click a button, typing some text, or select some menu -- and playback later. You can add recorded videos to your products or services to save your time to explain, and provide better experience for your customers. The Flash movie file can be published to the Web in no time.

## KEY FEATURES

### Easy to use, record exactly what you see and save to small-size Flash movies (SWF)

AutoScreenRecorder uses the same user interface as the highly successful ScreenHunter's. With an array of recording options, combined with Zoombox and adjustable area, you can take any part of the screen precisely in flexible ways, including any window and full screen.

### High productivity, time saving smart features

It can record mouse pointer, sound from your speaker or voice from microphone. It also offers timed recording including auto-stop and scheduled on any date and time. Recorded video files can be saved with automatically generated file names. So you don't have to stop each time to enter a file name.

### High quality

AutoScreenRecorder offers high quality recording. With smooth scaling, a Flash movie can be automatically scaled to any size. The image quality factor and framerate can be adjusted to ensure your maximum satisfaction.

### Affordable

At \$49.95 US, AutoScreenRecorder offers high price-performance value compared to other comparable products in the industry.

# ScreenHunter 5 Pro

© 2000 - 2006 Wisdom Software Inc. All rights reserved.

## A total screen capture solution!

ScreenHunter 5 Pro is the most comprehensive and advanced version of ScreenHunter with all the necessary tools included for you to capture, process and edit. It is a total capture solution to save you time and boost productivity.

With ScreenHunter 5 Pro, through an intuitive and highly flexible user interface, you can immediately see the benefits of these numerous time-saving features and deliver

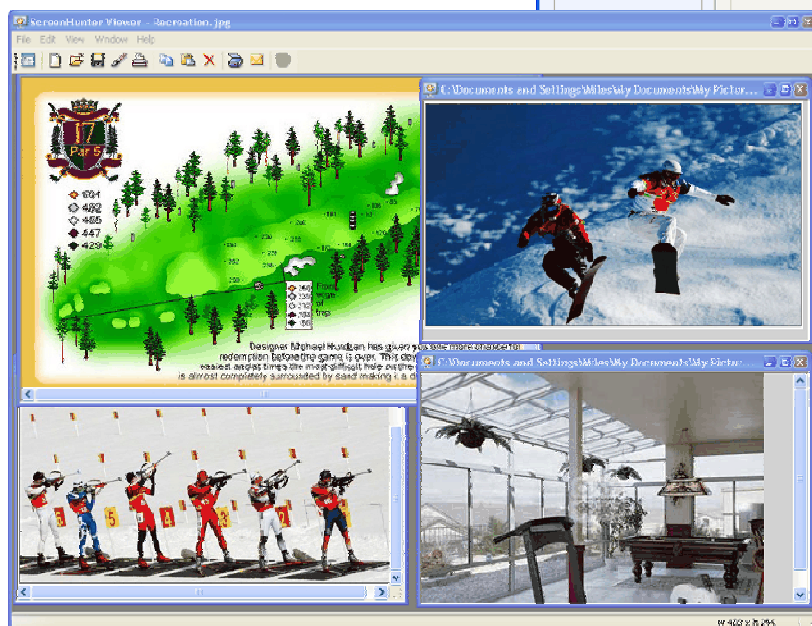

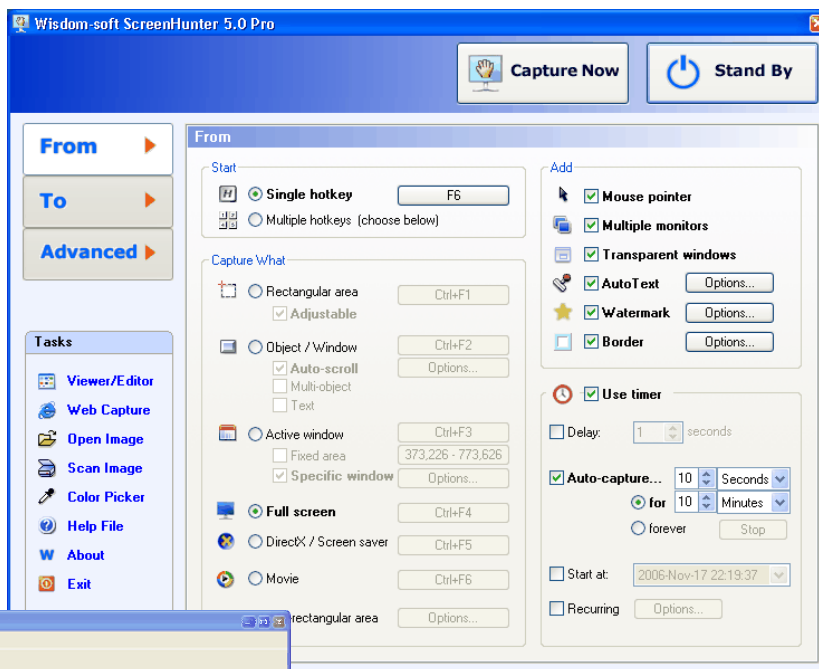

the highest quality screenshots. Powerful and intelligent, ScreenHunter 5 Pro has proven to be an incomparable ally in the area of business.

## KEY FEATURES

### Capture exactly what you want

Users can define the capture area window using a geometry-based selection tool (rectangular, elliptical or freehand), or can instead capture on the basis of content (text, DirectX windows, screen savers, movie screens). It supports multi-monitor, multi-object captures, scheduling and auto-emailing. With all of these tools at their fingertips, users are able to capture exactly the content they seek.

### High productivity

Each capture tool can be bound to user-defined hotkeys to allow users to capture with a single keystroke. In addition to providing a number of flexible capture tools, ScreenHunter Pro's management tools can be used to perform operations such as adding AutoText, watermarks, borders, auto-scrolling and auto-scaling captures.

### Easy viewing and editing

ScreenHunter provides a unique multi-document viewer and editor. The viewer can display up to 100 images and with a versatile image editor users can edit their captures directly -- by coloring, high quality zooming, resizing and cropping, as well as by adding text and annotation. The image editor also supports advanced image processing, such as adjusting color, smoothness.

### Advanced features

ScreenHunter Pro's Web Capture tool also allows users to download entire sets of images from Internet websites by simply specifying a target URL (http://www...). Other ScreenHunter 5 Pro advanced features include a screen wide color picker, advanced file conversion algorithms and Wysiwyg printing.

# MotionStudio 4

© 2000 - 2006 Wisdom Software Inc. All rights reserved.

**An easy-to-use authoring tool to create interactive animation EXE.**

**MotionStudio 4** is an easy-to-use, all-in-one multimedia authoring tool. It combines image, sound, interactivity and animation for you to create stand-alone executable files. It is an ideal solution for creating your slide shows, interactive and animated stories, educational materials or just "pictures to EXE" for your auto-run CD-ROM.

With **MotionStudio 4**, you can create scalable, vector-based drawing objects as well as adding photos and pictures. With an array of time-saving productivity tools, adding interactive actions and animation is easy. Simplified operation and improved quality is major highlight in this release.

## KEY FEATURES

**Easy to use, create exactly what you want royalty-free, stand-alone interactive EXE**

MotionStudio combines draw, paint and animation in one easy-to-use program to save your time and get your job done with a minimum cost.

**High productivity, time saving animation features**

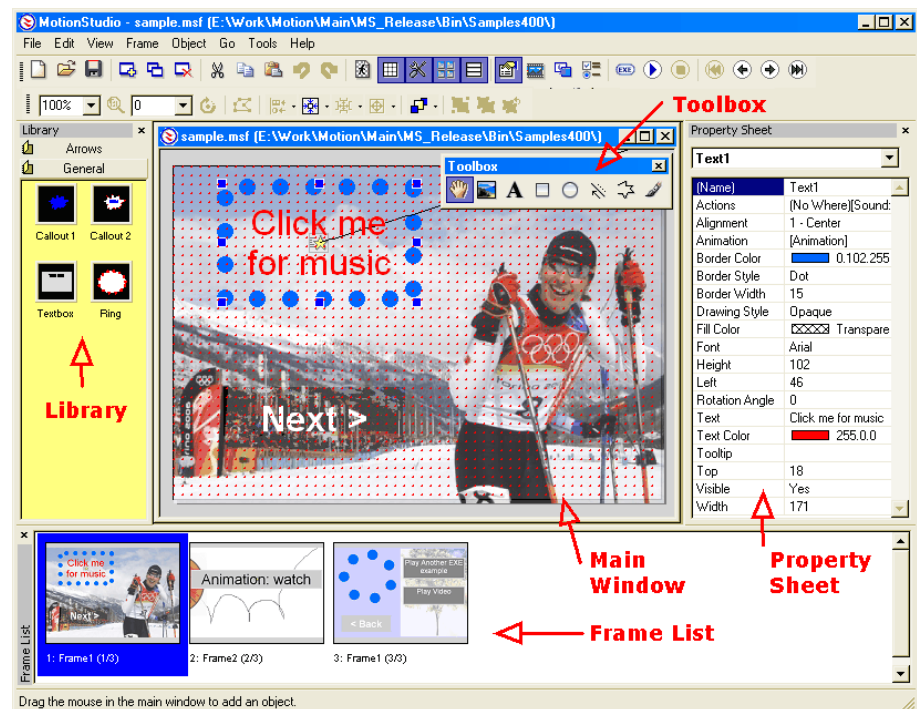

MotionStudio offers 64 built-in object animation combinations, and a freehand animation to draw any animation path. With 48 built-in visual effects, including fade and dissolve, it's just a few clicks, your animation is done. You can create your own library of objects and reuse them in any other MotionStudio file just drag & drop. Background is a new layer to be used to appear in all frames.

**High quality**

All drawing objects can be translucent, and all images can have adjustable transparency to blend in. Text quality is also improved and as well the enhanced image editor provides many image processing features.

**Affordable**

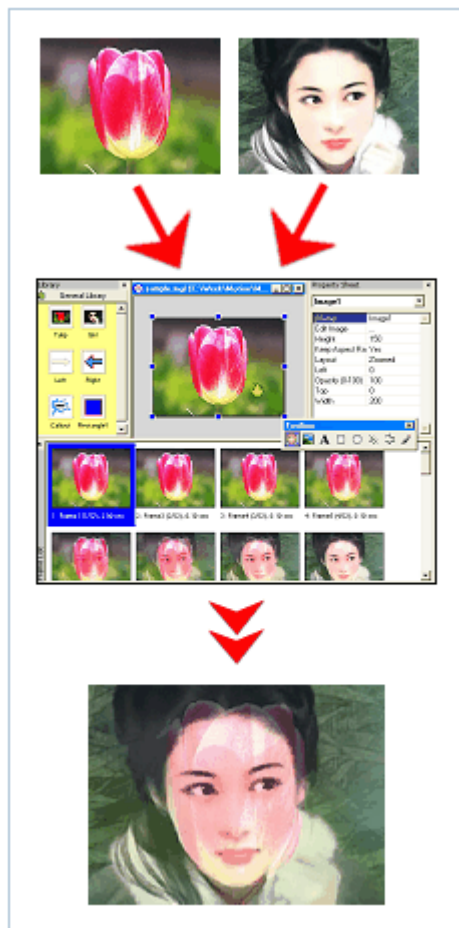

At \$39.95 US, MotionStudio offers high price-performance value compared to other comparable products in the industry.

# MotionGIF 4

© 2001-2006 Wisdom Software Inc. All rights reserved.

**An all-in-one, easy and feature-rich GIF animator for Web animation!**

**MotionGIF 4** is an all-in-one, user-friendly and feature-rich software to create great looking animated GIF files. It offers a very easy way to quickly create GIF animation for your Web pages.

With **MotionGIF 4**, you can create scalable, vector-based drawing objects as well as adding photos and pictures. With an array of time-saving productivity tools, animation creation is just a few clicks away.

By drag & drop images from your hard drive or from the Internet, with your choice of adding animation transition, your animated GIF will be created in no time.

## KEY FEATURES

### Easy to use, create exactly what you want GIF animation

MotionGIF combines draw, paint and animation in one easy-to-use program to save your time and get your job done with a minimum cost.

### High productivity, time saving animation features

With 48 built-in visual effects, including fade and dissolve, it's just a few clicks, your animation is done. GIF transparent color is also supported!

You can create your own library of objects and reuse them in any other MotionGIF file just drag & drop. Background is a new layer to be used to appear in all frames.

### High quality

All drawing objects can be translucent, and all images can have adjustable transparency to blend in. Text quality is also improved and as well the enhanced image editor provides many image processing features.

### Affordable

At \$19.95 US, MotionGIF offers high price-performance value compared to other comparable products in the industry.
